

Project Initialization and Planning Phase

Date	15 July 2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer planning the next cultivation season.	Select the most suitable crop based on soil nutrients and weather conditions.	I do not know which crop will provide the best yield for my land.	Soil nutrients and weather conditions vary across seasons, making crop	Uncertain about making the right farming decision.

				selection difficult	
PS-2	A small-scale farmer.	Improve crop productivity and reduce financial losses.	I lack access to expert agricultural guidance.	Agricultural experts are not always available, especially in rural areas.	Concerned about low crop yield and income.
