Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Observes low crop yield or financial loss. - Thinks about improving crop selection. - Looks for better farming solutions.	- Enters soil data into OptiCrop system. - Uses platform to analyze crop recommendations. - Reviews suggested crops and insights.	- Selects recommended crop. - Applies suggestions in real farming. - Monitors crop growth and yield.
Touchpoint <i>What part of the service do they interact with?</i>	- Local farming community. - Agricultural officers - Internet / mobile apps	- OptiCrop web/app interface. - Soil data input system. - Machine learning prediction module.	- Farm field implementation. - Weather reports. - Market price information

Customer Thought <i>What is the customer thinking?</i>	• "Why is my crop yield decreasing?" • "How can I improve my farming results?"	• "Is this recommendation accurate?" • "Will this crop suit my soil and climate?"	• "Did I make the right decision?" • "Will I get better profit this time?"
Customer Feeling <i>What is the customer feeling?</i>	Confused and Worried about losses	Curious and Slightly hopeful but uncertain	Hopeful and Satisfied
Process Ownership <i>Who is in the lead on this?</i>	Farmer	OptiCrop system	Farmer
Opportunities <i>How can we improve this stage?</i>	• Provide awareness about smart farming tools. • Educate farmers on data-driven decisions.	• Provide more accurate predictions. • Add real-time weather integration.	• Provide post-prediction guidance. • Suggest market trends for better profit.
